Daily Observation Log

Notice an experience. Explore what it might mean. Consider how it could support growth.

Date	

1. What did I observe?	*Describe the moment, detail, behavior, pattern, or surprise.*

2. What truth might this observation reveal?	*What might it suggest about people, systems, assumptions, or myself?*

3. How might this observation support growth?	*What could I learn, reconsider, try, or do differently?*

Connection or question to carry forward	*What idea, experience, or question does this connect to?*

Stay curious: a possible truth is an interpretation to explore, not a conclusion you must prove.
